# INSTITUTE FOR ORGANIZATION MANAGEMENT

## Pay It Forward Incentive

Institute for Organization Management partners with societies of association executives through the Pay It Forward incentive program.

This program offers your organization **two \$500 scholarships** to help send your members Institute. To qualify, we ask you to market Institute to your members. Scholarships may be used at any Institute site, but cannot be combined with any other scholarship opportunity or discount.

Founded in 1921, Institute was established to help association executives build stronger organizations, better serve their members, and become leading business advocates. With a diverse core curriculum and choice of electives to choose from, Institute provides education on all facets of running a nonprofit organization. All 96 credit hours earned at Institute may be applied toward earning or maintaining the CAE professional industry certification.

For more information, please contact Shelby Parish, IOM, associate manager, operations, Institute for Organization Management at 202-463-5973 or [sparish@uschamber.com](mailto:sparish@uschamber.com).

“Receiving the Pay It Forward scholarship enabled my association to invest in my continued growth by leveraging what small professional development resources we have. Without the scholarship, it would have been challenging for my association to have sent me to Institute.”
